

# LIFE CYCLE ASSESSMENT

## IMPROVE YOUR SUSTAINABILITY PERFORMANCE

MOBI develops advanced Life Cycle Assessment (LCA) methods and practical procedures that translate sustainable opportunities into business realities. We offer comprehensive support for decision makers in a wide cross-section of the industry and play a vital role in developing their investment strategy.

### AWARENESS AND TRAINING

Learn how to capitalize on the economic benefits of life cycle thinking

### MAPPING INSIGHTS

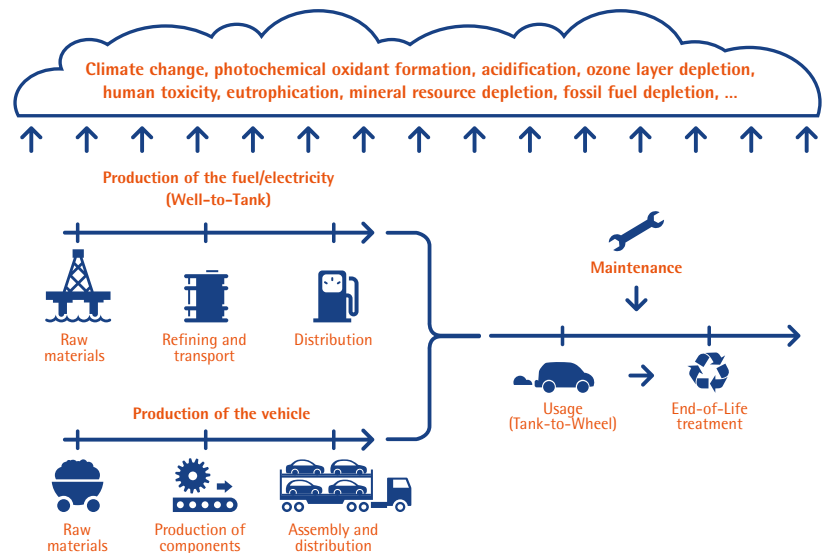

Evaluate product impacts in line with a variety of methodologies and standards

### CREATING OPPORTUNITIES

Compare alternate eco-design scenarios and define indicators, dashboards and actions

### COMMUNICATING BENEFITS

Make results understandable and easily accessible to all stakeholders

### WHAT WE DO

- Translate sustainable insights into tangible opportunities
- Benchmark alternatives from a full life-cycle perspective
- Think outside the box
- Key support for strategic decision-making
- Provide expertise in product development

### WHAT YOU GET

- Fully tailored stewardship approach from training up to the drafting of detailed studies
- Powerful insights into the economic, environmental and social impact of your products
- Optimised processes
- Detailed actions
- Ready-to-implement plans
